PROJECT NAME: Smart Waste Management System for
Metropolitan cities

Maximum Marks: 2 marks

Analysis

Collection

**WASTE
MANAGEMENT**

Transportation

Recovery

Recycling/ Disposal

Problem Statement:

I am

One of the responsible person or citizen towards the environment.

I'm trying to

Eliminate the scenario of overflowing of wastes in the surrounding place.

But

The trash cans are always filled with Bio-degradable and non - biodegradable wastes.

Because

I live in metropolitan city where there is no resources to analyse the level of trash in trash bins.

Which makes me feel

Worried and to take necessary steps.
